

**Casterbridge™**

Exclusive to Fairfax Meadow from selected breeds. Bred in the south west and finished on a diet of grain to control protein intake we believe that Casterbridge is the best beef on the UK Market

Aberdeen Angus

Bred in the UK these Aberdeen Angus cattle produce excellent quality flavoursome beef.

Hereford

Throughout its history the Hereford has maintained its distinctive white face and red coat. Herefords finished off grass land produce an excellent 'marbled' beef

Canadian Grain Fed

Canadian beef cattle producers based their herds on the early maturing and relatively easy finishing breeds such as Herefords and Aberdeen Angus as well as Charolais, Simmental, and Limousin. These cattle produce excellent quality beef.

Dexter

The Dexter originated in the South Western region of Ireland. Like the Kerry, they are descended from the predominately black cattle of the early Celts. They produce high quality flavoursome beef.

## The largest range of Quality Beef in the country

Wagyu

Wagyu refers to several breeds, genetically predisposed to intense marbling and to producing a high percentage of oleaginous unsaturated fat. The meat from Wagyu cattle is known worldwide for its marbling characteristics.

Australian Grain Fed

Australia is a leading producer of natural, wholesome beef raised on pasture and crops; and is gaining international recognition for its tender, tasty and juicy grain fed beef products

American Grain Fed

American Grain fed Beef is amongst the best in the world, with a high meat to fat ratio, this beef eats excellently.

Longhorn

English longhorns have been bred for centuries, Their long length and rapid growth produce beef which is extremely lean.
