

Halal Products

from

fairfaxmeadow
putting great meat on the menu

in association with

The Accreditation & Ethos

Over the past few decades Fairfax Meadow have always strived to service all of our customers needs, from sourcing new & better quality products, to developing vehicles which allow us to be more environmentally efficient, our service to our customers is unparalleled within the industry.

We pride ourselves on being market leaders and with that in mind have become the first national catering butcher to open a dedicated Halal processing facility within our Derby plant.

The facility has been inspected and accredited by the European Halal Development Agency and was found to meet all the requirements for Islamic Shariah for the processing & distribution of fresh chilled and frozen Halal meat.

We see this facility as an opportunity to further supply all of our customers, who have come to expect top quality meat and butchery as standard from Fairfax Meadow, with the products they require.
